The Cherokee Corn Planter! PATENTED BY ELLIS & CHARLTON, Sept. 8th, 1857 THE only cheap, durable and efficient machine for planting corn ever presented to the Planters of Teanessee, is now on exhibition at Messrs. Armstrong a Co's, No. to Market street, Nashville.

The Checokee Corn Planter recommends itself above all others, for its durability, changeess, simplicity, and the perfect manner that it performs the following described work.

It furrows out the ground to any acribed work.

It furrows out the ground to any required depth—straps the corn, as many kernels as desired, in a space of four inches diminster, mathematically in the hill—rowers the hills and presses the earth, (as by the old rethed with the hos)—and marks accurately the po-tion of each hill. With a single horse, a man or boy an plant ten to fifteen acres per day with case.

Finance and others are invited to an examination of this machine, at Messes. Armstrong a Cov., where it is no endjoining clates, by applying instructionly, (as versiony is being disposed of rapadly.) can do so upon such series as will insure them a large resure on the aventurent.

Twenty Choice Varieties for One Bellar.

The supply a want that has been greatly demanded by Amateurs of Flowers, he has purchased from Mr. B. R. Ries, of Springheid, Muss., an assortment of his Flower Seeds, which have been found and are known in every State of the Union, to be of the most reliable characters. I make the following extract from Bliss totalogue, so that it may be seen that I sell them at exactly his prices. He seeds unfarmed not only those of his own raising, but selections from the best English. French, and German flower seeds. They are sold at half the price that flower seeds have before commanded in this market.

I have selected out of my large collection of flower seeds, the most beautiful and shewy varieties, each sort distinct in color, and calculated to produce a fine effect when planted out in beds or groups in the flower border. I have had each variety distinctly marked with the Botanical and English name, height, time of flowering, color of the Bower, manner of growing, whether erect or traffling, ke., the time it should be sown, and other valuable hints as to its unitivation.—In selecting these varieties, I have been careful to exclude all which are really showy and handsome; and which I believe would prove to the outer satisfaction of any lady or gentleman who might be disposed to order them. The collection will be sent free by post to any part of the country at the following prices:
